- Substantial Savings by Leveraging AI to Generate Enhanced Workflows
  - Gain a Deeper Understanding of Other Salesforce Products
- Create a Single Source of Truth for Sales, Marketing & Service Departments
- Optional Ongoing Enhancements and Support Following Implementation
  - Utilize AI Enhanced Implementation on Multiple Cloud Deployments

Let me introduce  
you to our new  
partner, Swantide!

### Swantide

Swantide is a purpose-built platform designed to automate the implementation of Salesforce and dramatically reduce administration time. The platform combines real time, always up to date Salesforce Org Documentation with a powerful AI Assistant. The Swantide Implementation Library is a catalog of common delivery assets that can be easily used by Customers to achieve tremendous Salesforce value. System Integrators (SI) can create their own proprietary assets to further drive customer intimacy and success. The same way Salesforce pioneered Cloud, Swantide is pioneering a new era of AI driven Professional Services and Administration.
